Presentation

I am Muhammed Ferit Kiziler and welcome you to my practice for veneers.

I am a dentist and founder of InnoEsthetics. Since 2019 I have my own practice in Bochum. I want to give people not only new teeth or a beautiful smile with veneers, but also change their lives in a lasting way.

It is very important to my team

and me that you feel comfortable in the practice and are treated in a pleasant atmosphere.

In order to treat you transparently, I will be happy to answer any questions you may have about your veneers and explain to you which treatment is necessary in relation to your dental situation.

About veneers

Veneers are a great way to improve your smile. They are thin, porcelain-like shells that are placed over the front of your teeth to give you a bright white and perfect smile.

Veneers can help to correct teeth that are tilted, worn, broken or discoloured. They are also a great way to enlarge or reduce teeth to make your smile more symmetrical and attractive.

If you are interested in veneers, contact me today. I will advise you and help you to find the perfect veneers for your smile.

I look forward to welcoming you soon in my medical practice in Bochum or in the newly opened practice in Munich!

Our prices

We charge €1,500 per tooth for the insertion of veneers. Of course, you can pay this off in different instalments. Your new teeth will be customised in our laboratory. In at least three sessions, we take full care of your individual needs.

Price per tooth

63 € / month (or one-time 1,500 €)

- ✓ Clarification of the treatment
- ✓ Creation and printing of digital models of the mock-up
- ✓ Fabrication of the mock-up in the laboratory
- ✓ Fabrication and insertion of a temporary restoration
- ✓ Grinding of the teeth
- ✓ Digital taking of the precision impression
- ✓ Fabrication of the veneers in the dental laboratory
- ✓ High quality adhesive material
- ✓ Application of the veneers
- ✓ Participation of our treatment team
- ✓ High time expenditure (min. 3x appointments)

e.g. 4 teeth

250 € / month*

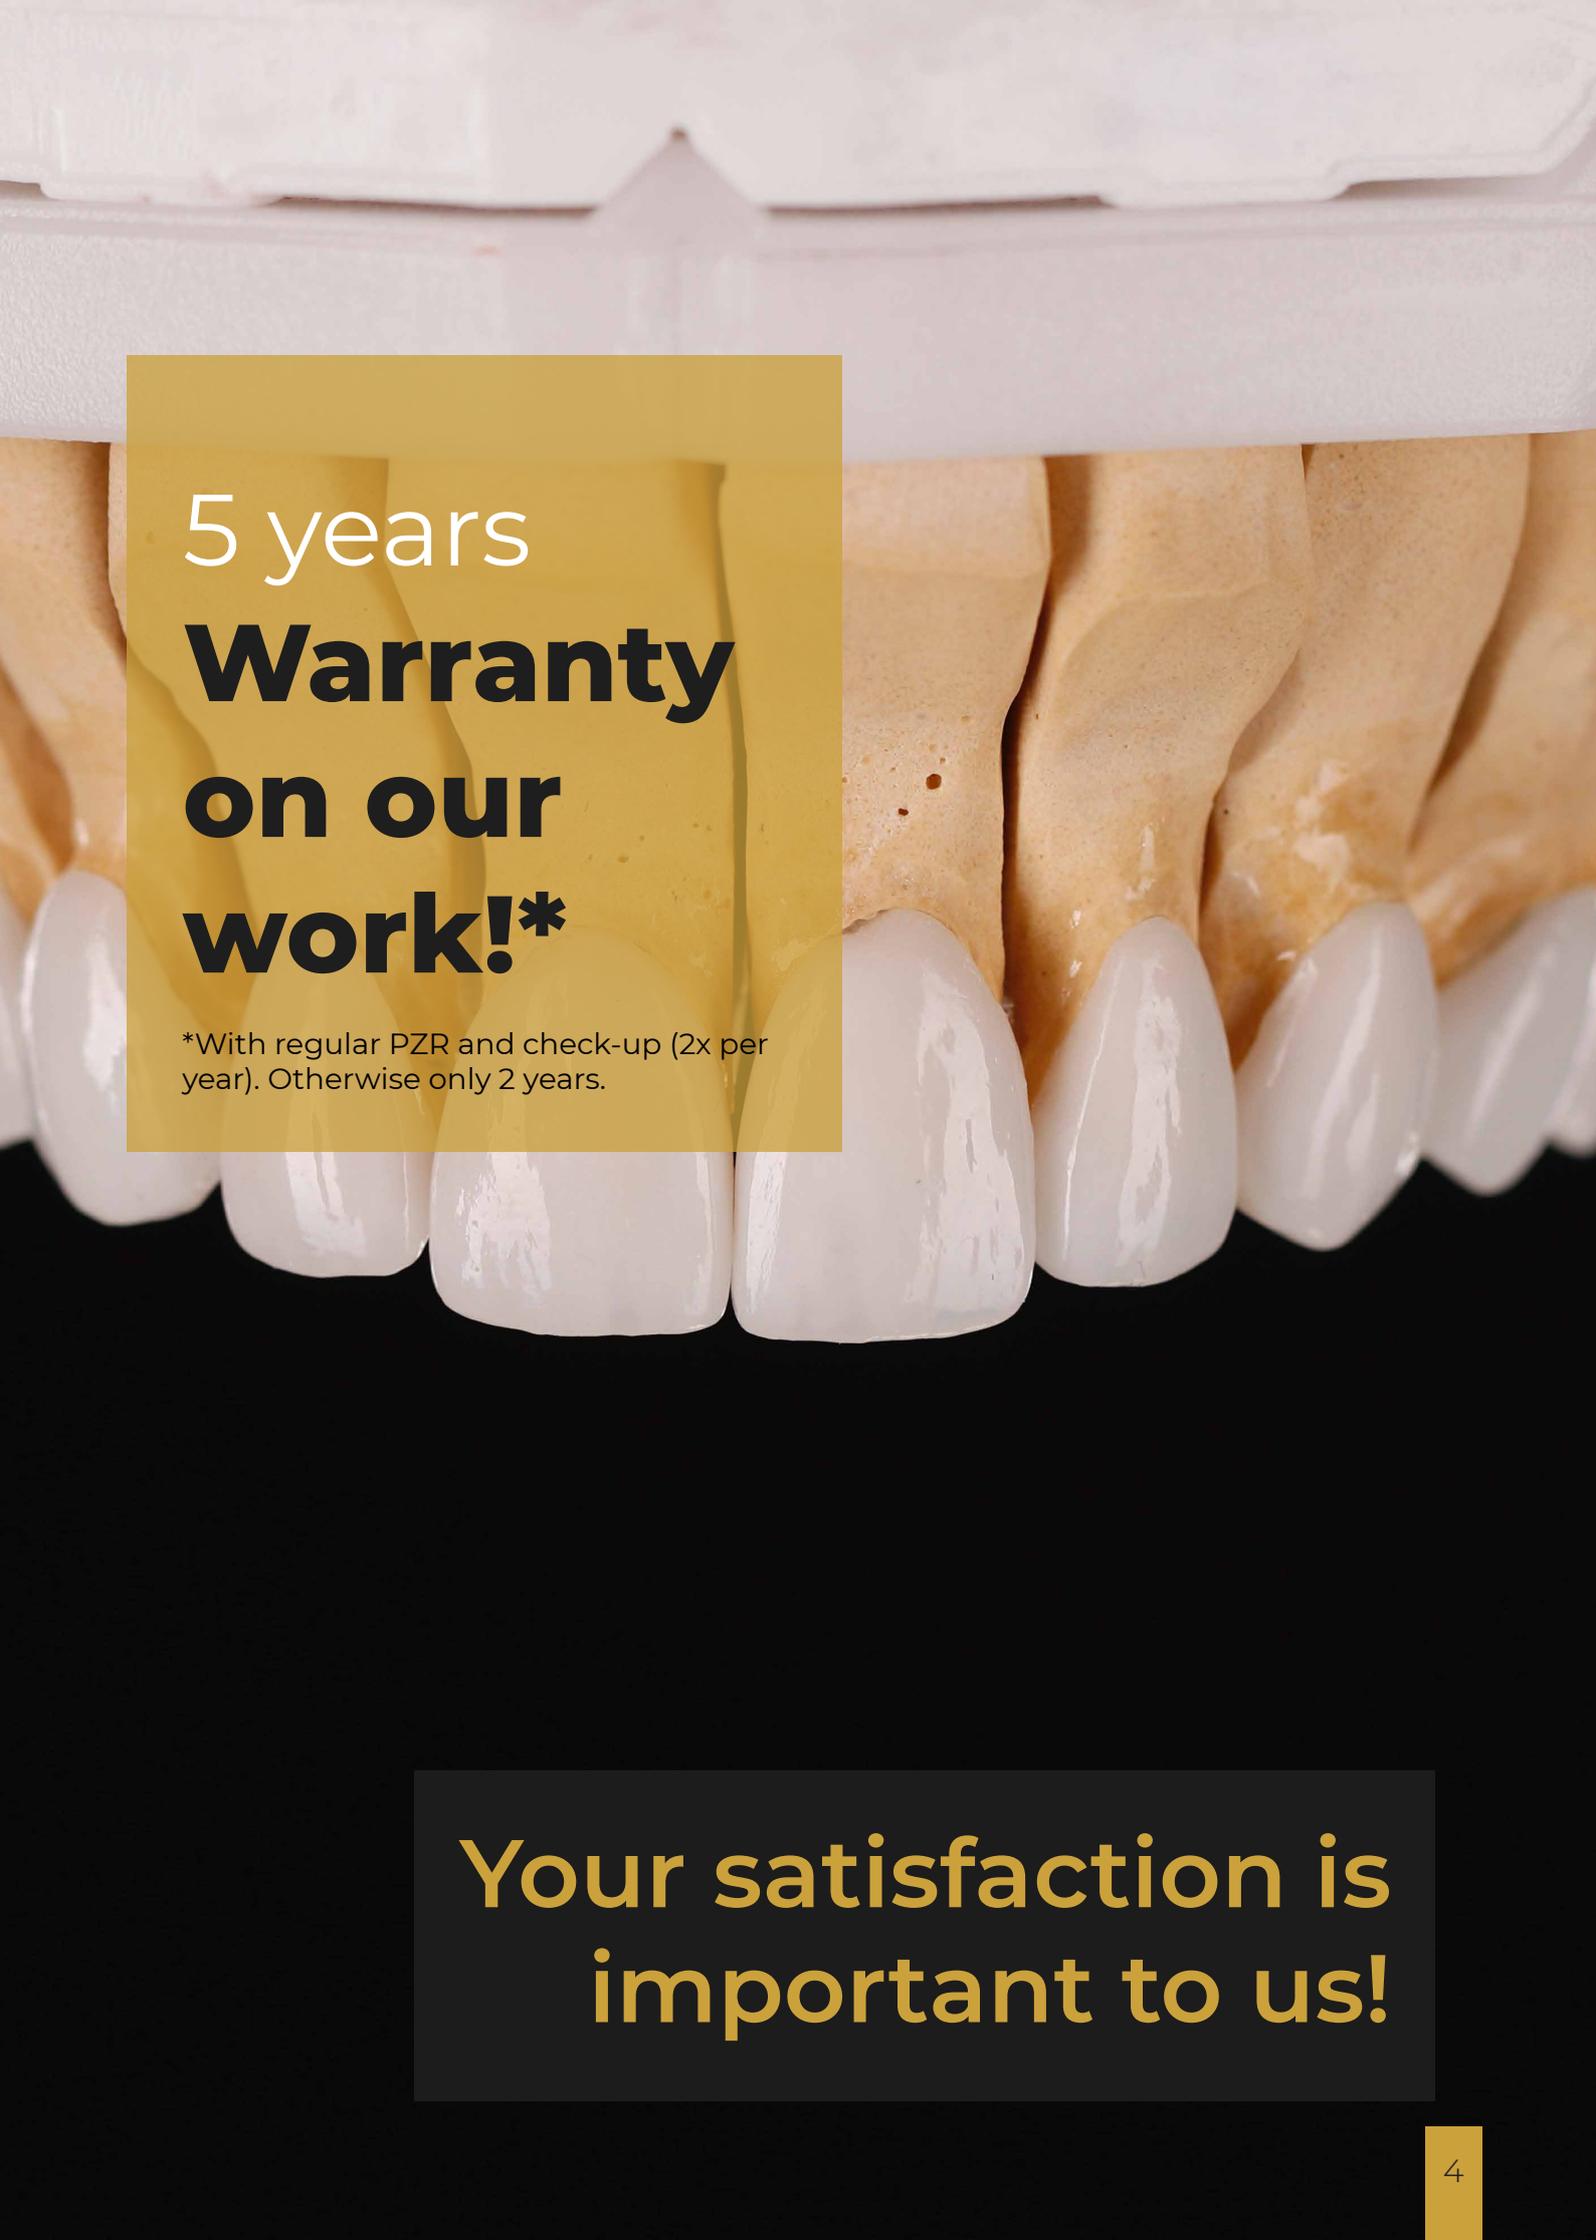

*Or pay €6,000 once.

e.g. 8 teeth

500 € / month*

*Or pay €12,000 once.

* The monthly instalment shown is based on a 24-month period and is interest-free. The monthly instalments can be financed in up to 72 months. The effective annual interest rate is 9.8%.

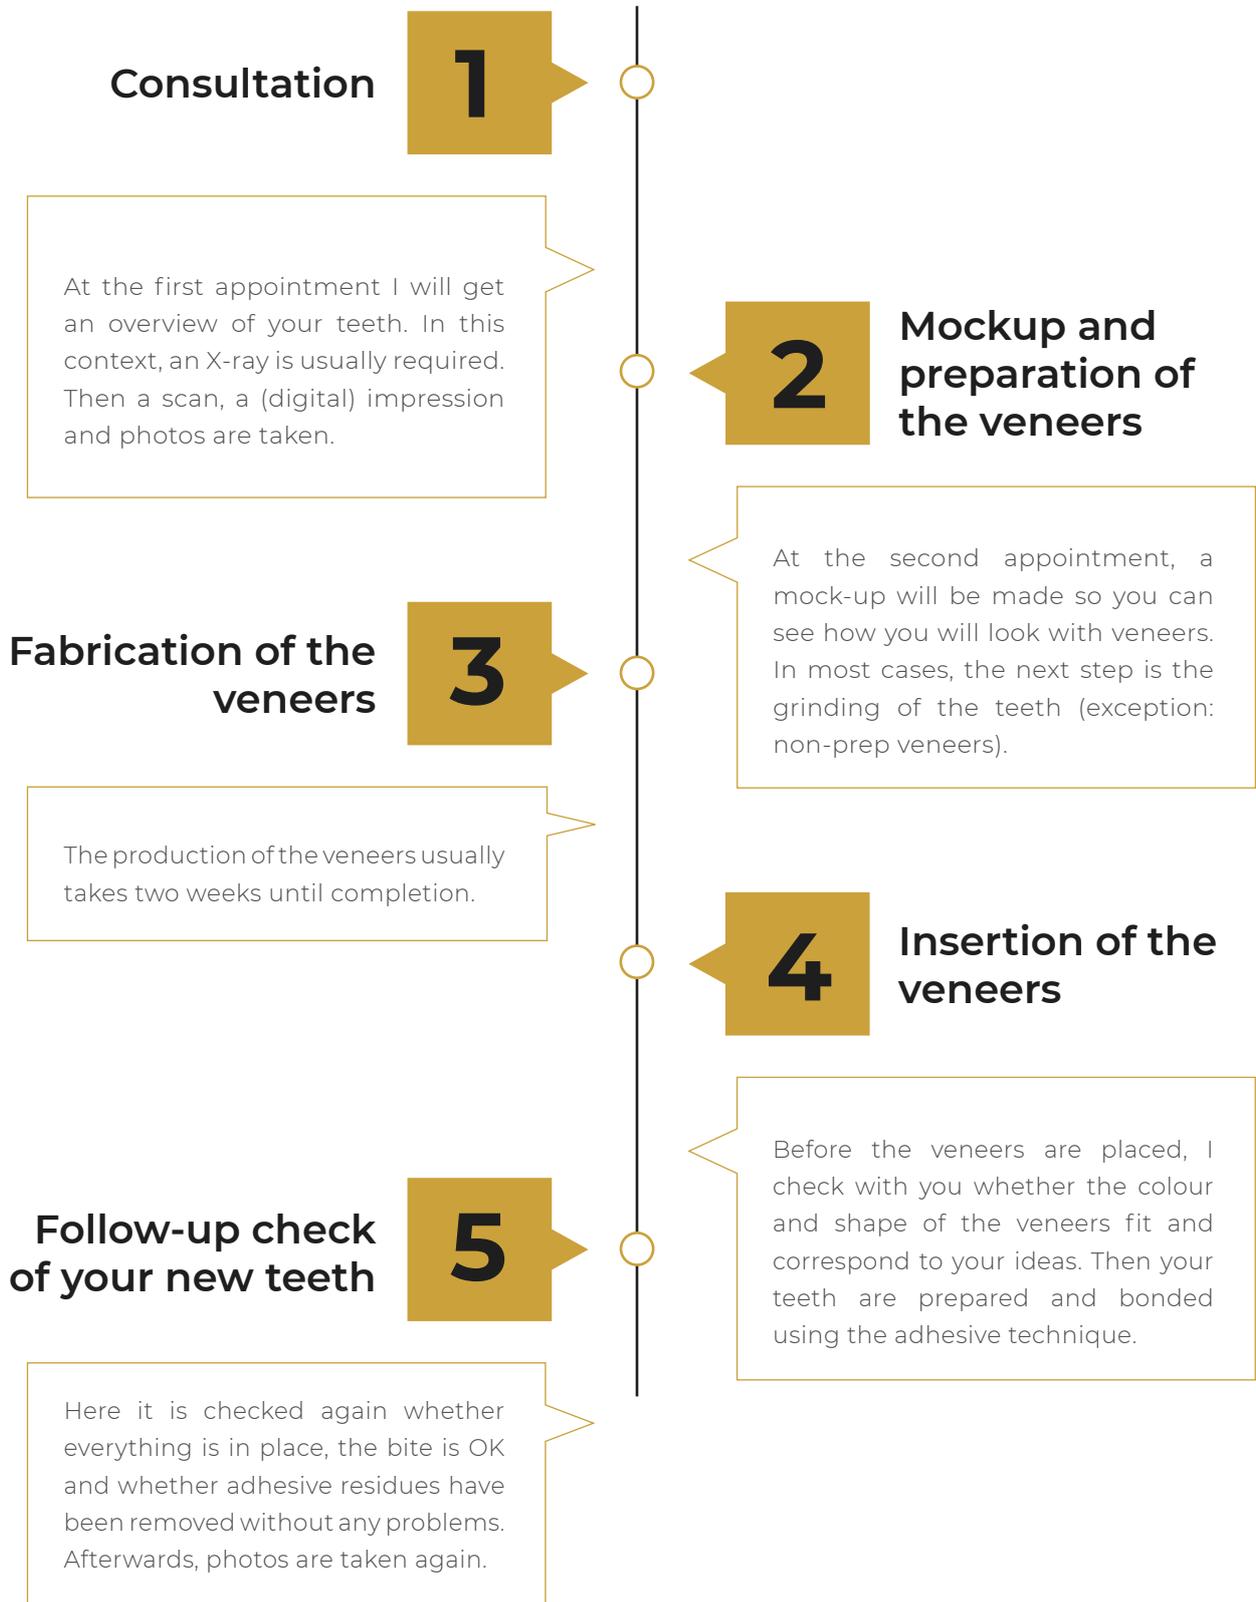

5 years

**Warranty
on our
work!***

*With regular PZR and check-up (2x per year). Otherwise only 2 years.

**Your satisfaction is
important to us!**

Procedure of **treatment**

Before / After

01 Filiz

Filiz was very unhappy with her gritted teeth and had been planning to get veneers for a long time. However, she is also very afraid of dentists. [Watch the video](#)

02 Damian

Damian's teeth had become badly discoloured due to many years of cigarette and coffee consumption. It was very difficult for him to laugh. Now Damian has a new attitude to life. [Watch the video](#)

03 Domenika

For years, Domenika never really dared to laugh. After the insertion of the veneers, she is finally beaming again. [Watch the video](#)
